PROFILE

As a MERN stack developer with a focus on front-end development,
I possess strong skills in developing responsive and interactive user interfaces using HTML, CSS, TypeScript and ReactJS. With experience in Redux for state management and integrating APIs, I have the ability to build scalable and modular applications with ease. I am also familiar with Git, and have a keen eye for design. My commitment to staying up-to-date with emerging technologies and industry trends allows me to continually deliver high-quality code and exceed expectations.

Work Experience

Vision Dimension | Front End Web Developer   *4 /2022 – Present*

*As a front-end developer at Vision Dimension, I was responsible for creating and implementing visually appealing and user-friendly website interfaces using HTML, CSS, JavaScript and React.js.
I worked closely with the UX/UI design team to ensure a seamless user experience and optimized performance across multiple platforms. Additionally, I collaborated with the back-end development team to integrate dynamic content and functionality into the website.*

Free Lancer | Full Stack Web Developer   *5 / 2021 – Present*

As a Full Stack Web Developer, I have gained extensive experience over the past year working with the MERN stack. This includes building and deploying complex web applications using MongoDB, Express.js, React.js, and Node.js.
In this role, I have contributed to various aspects of the software development lifecycle, from requirements gathering and design to coding, testing, and deployment.
My skills in problem-solving, collaboration, and adaptability have allowed me to deliver exceptional results and work seamlessly with cross-functional technologies.

CORE SKILLS

Front-End Development
Html, CSS, SASS, JavaScript, TypeScript
React.js, Redux, Redux Toolkit
Tailwind CSS, Bootstrap CSS, Material UI

Back-End Development
Node.js, MongoDB, Express.js
Mongoose
Knowledge of security principles for web applications and experience in implementing them.
